The 1960s was arguably the most important decade for drag racing. It had exciting cars, thrilling races, and most importantly, factory participation. Among the best high-performance cars and engines were those coming from Dearborn, Michigan. Ford Motor Company's "Total Performance Years" saw a breakthrough as drag racing helped the younger, performance- and style-conscious consumer to begin receiving some recognition.

Factory participation in drag racing pushed the envelope for high performance developments. Ford's FE-series engine, Police Interceptor, GT 390, Single Overhead Cam, Cobra Jet, and Boss 429 are all covered in detail. See the cars and the drivers that made them famous – Dick Brannan's Goldfinger, Bill Lawton's Mystery Mustang, "Dyno Don" Nicholson's Eliminator Comet, Gas Ronda's stretched Mustang, Al Joenic's Batcar, and more.

Accomplished journalist and life-long Ford aficionado Charles Morris (see more on the author below) takes you back to the Total Performance Years through first-hand accounts as well as over 400 rare photographs. This book is a must read for all drag racing fans, not just Ford enthusiasts
